Program
SAKK Semi-Annual Meeting 2017

Thursday, June 29
and Friday, June 30

Zurich Marriott Hotel
Neumühlequai 42, 8006 Zurich

We want the best possible cancer therapy.
Dear friends of SAKK, dear Madam or Sir, dear colleagues

It is our pleasure to invite you to the June semi-annual meeting of SAKK to be held at the Marriott Hotel in Zurich. Please find henceforth the program of the meeting, registration details and other general information.

For the first time, the SAKK Patient Advisory Board has organized an event for the public with speeches on the latest research topics adapted for patients, relatives and other interested persons. The goal is to increase the involvement of the public and concerned patients in cancer research. The Patient Advisory Board chooses for the program a current research focus of a SAKK Project Group and Working Group or Section. In June, it will be Breast Cancer and Immuno Oncology. For further information, please consult the respective flyer.

New in the program is also a GCP Refresher course for all investigators which will take place on Thursday and Friday morning from 08:30 to 09:00. This refresher will mainly focus on the implementation of the ICH GCP Addendum. All participants will receive a certificate. Furthermore, we draw your attention to the Satellite Symposium organized by Roche laying the focus on «The cancer immunity cycle and its translation to combination therapy» and the awards ceremony with the Life Grant, the SAKK/Dr. Paul Janssen Fellowship and the SAKK/Pfizer Award.

We will again have two eventful days contributing to bring progress to cancer care and we look forward to welcoming you in Zurich.

Sincerely
SAKK Coordinating Center
